Sourcing from India, made straightforward.

We started Clarté Overseas in 2025 with one clear aim: make it easy for food businesses anywhere to buy dependable dehydrated ingredients from India. The country grows an extraordinary range of produce and botanicals, yet finding a supplier who is consistent, compliant and genuinely easy to deal with is still surprisingly hard. Closing that gap is the whole reason we exist.

We are a **merchant exporter**, not a single factory. We work with a vetted network of manufacturers and processors across India, which lets us offer a broad range of grades and forms while keeping a close watch on quality, documentation and delivery — from raw-material selection and lab testing to packaging and export paperwork.

— HOW WE WORK

C Clarity

Straight answers, clear itemised pricing and honest timelines on every order — no fine print, no surprises.

C Compliance

Every consignment ships with the certifications and paperwork your market expects, handled end-to-end.

C Consistency

Same flavour, colour and spec batch after batch — supply you can plan your own production around.

OUR MISSION

Give food brands a dehydrated-ingredient partner they can fully rely on: steady quality, honest sourcing, supply that lands on time, every order.

OUR VISION

Become the world's most trusted exporter of dehydrated food ingredients, reaching buyers in as many countries as we possibly can.

— WHY DEHYDRATED

Smaller, lighter, longer-lasting.

Take the water out and you keep the goodness while cutting the cost and hassle of moving it. Dehydrated ingredients give your formulations real flavour, colour and nutrition — with none of the spoilage, freight weight or seasonality of fresh produce.

01

Long shelf life

12 to 24 months of stable quality with no cold chain required.

02

Lighter to ship

Removing water means far less weight — and lower freight cost per kg of flavour.

03

All-year supply

Available well beyond the harvest window, so your production never waits on a season.

04

Stable quality

The same flavour, colour and performance in every batch you receive.

— WHO WE SERVE

Industries we supply

Food & beverage manufacturers

Flavour houses & ingredient blenders

Seasoning & formulation companies

Bakery & confectionery

Nutraceutical & health-food brands

HoReCa & private-label retailers

Why buyers choose Clarté Overseas.

01

Compliance, Built In

FSSAI, ISO, HACCP and APEDA — every consignment ships with the paperwork your market expects.

02

Farm-Direct Sourcing

We buy straight from India's growers and audited units, so quality stays traceable from farm to pack.

03

Speed & Availability

Quotations within 24 hours, samples delivered in 5 days, and bulk orders dispatched in 7–15 days. We stay reachable at every stage — no gaps, no waiting around.

04

Batch Traceability

Every lot carries a code you can follow from raw material to dispatch — audits stay simple.

05

Integrity & Transparency

Straight answers, clear pricing and ethical trade on every order. No fine print, no surprises.

06

Long-Term Partnerships

We would rather earn a long partnership than win a single order, so we invest in trust.

— WORKING WITH US

Sourcing made simple

MOQ

Trial-Friendly MOQs

Start with a small test order and scale up as demand grows.

USD

Priced in Your Currency

Itemised quotes in USD, EUR, GBP or AED — nothing hidden.

P/L

Private Label & Packs

Your brand and spec, packed to retail or bulk format.

7–15d

7–15 Days Dispatch

Quick turnaround from confirmed order to goods on the dock.

— OUR PROCESS

Quality controlled, batch by batch.

Every lot is made in hygienic, certified facilities under tight quality control — we grade the raw material, test moisture and microbial counts, run metal detection, then do a final check before dispatch.

— GLOBAL EXPORT FOOTPRINT

Where our produce travels

From the UK and Europe to the Gulf, Australia and South-East Asia, Clarté Overseas supplies importers, processors and distributors across multiple continents — and the map keeps growing.

UK**United Kingdom**
ACTIVE**EU****Europe**
ACTIVE**AE****Gulf & Middle East**
ACTIVE**AU****Australia**

DEHYDRATED FRUIT POWDER

01 / 28

Guava Powder

Psidium guajava

Tropical aroma and a soft pink-cream colour, ready to disperse.

Made from ripe Indian guavas, our guava powder carries the fruit's musky-sweet aroma and gentle acidity into any formulation. It rehydrates cleanly and blends without clumping — true guava character without the moisture or short shelf life of the fresh fruit.

HSN CODE
1106 30 10

DEHYDRATION
Spray / freeze / drum-dried

FORMS
Powder

GRADE
Food grade

80–100 mesh (custom available) · Moisture ≤ 5% · Private label / bulk

KEY FEATURES

- 100% fruit, no added sugar or colour
- Bright, natural guava aroma
- Free-flowing and easy to disperse
- Long, stable shelf life

APPLICATIONS

- Juices, nectars and smoothie mixes
- Bakery fillings and confectionery
- Flavoured dairy and ice cream
- Nutraceutical and infant-food blends

DEHYDRATED FRUIT POWDER

02 / 28

Pineapple Powder

Ananas comosus

Sun-sweet tang and golden colour in a stable powder.

Our pineapple powder captures the bright, tangy-sweet profile of tropical pineapple in a shelf-stable form. It is ideal wherever liquid pineapple is impractical, delivering authentic flavour and a warm golden tone to your product.

HSN CODE
1106 30 10

DEHYDRATION
Spray / freeze / drum-dried

FORMS
Powder

GRADE
Food grade

80–100 mesh (custom available) · Moisture ≤ 5% · Private label / bulk

KEY FEATURES

- True pineapple tang and aroma
- Natural golden colour
- Dissolves quickly in water
- No artificial additives

APPLICATIONS

- Beverage and cocktail premixes
- Bakery, desserts and toppings
- Yoghurt and dairy flavouring
- Seasonings and marinades

Banana Powder

Musa paradisiaca

Smooth, mellow sweetness with natural body.

Milled from ripe bananas, this powder brings mellow sweetness and a creamy mouthfeel to recipes, plus natural thickening. It is a favourite in infant nutrition and sports formulations for its gentle flavour and easy digestibility.

HSN CODE
1106 30 10

DEHYDRATION
Spray / freeze / drum-
dried

FORMS
Powder

GRADE
Food grade

80–100 mesh (custom available) · Moisture ≤ 5% · Private label / bulk

KEY FEATURES

- Naturally sweet, no added sugar
- Adds body and smooth texture
- Easy to reconstitute
- Versatile across sweet and savoury

APPLICATIONS

- Infant and toddler nutrition
- Smoothies and protein blends
- Bakery and pancake mixes
- Cereal and snack coatings

Apple Powder

Malus domestica

Crisp, orchard-fresh sweetness that keeps.

Our apple powder delivers the familiar sweet-tart taste of fresh apples in a convenient dry format. It folds easily into dry blends and bakes, adding fruit content, natural flavour and a touch of pectin-rich body.

HSN CODE
1106 30 10

DEHYDRATION
Spray / freeze / drum-
dried

FORMS
Powder

GRADE
Food grade

80–100 mesh (custom available) · Moisture ≤ 5% · Private label / bulk

KEY FEATURES

- Sweet-tart apple character
- Clean label, single ingredient
- Blends evenly in dry mixes
- Long shelf life

APPLICATIONS

- Cereals, mueslis and bars
- Bakery and crumble mixes
- Teas and instant beverages
- Sauces and baby food

Mango Powder

Mangifera indica

The king of fruits, captured at peak ripeness.

Pressed from sweet, fully ripe Indian mangoes, this powder carries the rich aroma and deep golden colour the fruit is loved for. It is a natural fit for beverages, desserts and dairy that need real mango identity.

HSN CODE
1106 30 10

DEHYDRATION
Spray / freeze / drum-dried

FORMS
Powder

GRADE
Food grade

80–100 mesh (custom available) · Moisture ≤ 5% · Private label / bulk

KEY FEATURES

- Ripe Alphonso / Totapuri character
- Vivid natural colour
- Excellent solubility
- No added sugar or flavour

APPLICATIONS

- Mango lassi, juices and shakes
- Ice cream and dairy desserts
- Bakery, fillings and confectionery
- Nutrition and breakfast blends

Tamarind Pulp Powder

Tamarindus indica

Deep, sour-sweet tang for sauces and seasonings.

Our tamarind powder concentrates the bold, sour-sweet flavour of tamarind pulp into an easy-to-dose dry form. It removes the mess of paste and seeds while delivering consistent acidity to sauces, chutneys and spice blends.

HSN CODE
0813 40 90

DEHYDRATION
Spray / freeze / drum-dried

FORMS
Powder

GRADE
Food grade

60–80 mesh (custom available) · Moisture ≤ 7% · Private label / bulk

KEY FEATURES

- Concentrated sour-sweet flavour
- Consistent acidity, no seeds
- Easy to weigh and disperse
- Long shelf life

APPLICATIONS

- Sauces, chutneys and ketchups
- Spice and seasoning blends
- Soups, broths and instant mixes
- Confectionery and beverages

Papaya Powder

Carica papaya

Mild, sweet tropical fruit with natural enzymes.

Papaya powder offers a soft, sweet tropical flavour along with the fruit's naturally occurring enzymes. It works well in nutrition blends and digestive formulations, and adds a gentle fruitiness to beverages and desserts.

HSN CODE
1106 30 10

DEHYDRATION
Spray / freeze / drum-dried

FORMS
Powder

GRADE
Food grade

80–100 mesh (custom available) · Moisture ≤ 5% · Private label / bulk

KEY FEATURES

- Mild, sweet papaya taste
- Source of natural enzymes
- Smooth, fine texture
- Clean single-ingredient label

APPLICATIONS

- Digestive and nutrition blends
- Smoothies and beverages
- Skincare and cosmetics
- Desserts and bakery

Red Onion Powder

Allium cepa

Bold, deeply flavoured Indian red onion — rich savouriness in every form.

Our red onion powder is made from India's robust, dark-red onions, prized for their strong pungency and deep colour. It delivers rich, complex onion flavour to seasonings, sauces and ready meals — available as fine powder right through to kibbled flakes, with no prep or waste.

HSN CODE
0712 20 00

DEHYDRATION
Air / spray / freeze-dried

FORMS
Powder · Granules · Minced · Chopped · Flakes

GRADE
Food grade

Custom mesh / cut sizes · Moisture ≤ 6% · Private label / bulk

KEY FEATURES

- Strong, complex red-onion pungency
- Deep colour, batch-to-batch consistency
- Available in five cut sizes
- No peeling, chopping or spoilage

APPLICATIONS

- Seasoning and spice blends
- Snacks, sauces and dressings
- Ready meals, soups and gravies
- Meat rubs and marinades

Pink Onion Powder

Allium cepa

India's delicate pink onion — mild, sweet and universally versatile.

Made from India's prized pink onions — lighter in colour and milder than deep red varieties — this powder brings a gentle, balanced sweetness where subtlety matters more than bold pungency. Its pale blush tone suits light seasonings, dressings and cream sauces where a dark onion powder would show.

HSN CODE
0712 20 00

DEHYDRATION
Air / spray / freeze-dried

FORMS
Powder • Granules •
Minced • Chopped •
Flakes

GRADE
Food grade

Custom mesh / cut sizes • Moisture ≤ 6% • Private label / bulk

KEY FEATURES

- Mild, balanced sweetness
- Pale blush colour — won't darken products
- Available in five cut sizes
- Gentle flavour for refined seasonings

APPLICATIONS

- Dressings, dips and light sauces
- Seasoning and spice blends
- Soups and cream-based dishes
- Snacks and savoury coatings

White Onion Powder

Allium cepa

Clean, milder onion with a pale, neutral colour.

White onion powder offers a cleaner, slightly milder profile and a pale colour that won't tint light-coloured products. It is the go-to choice for white sauces, soups, dressings and seasoning blends where appearance matters as much as taste.

HSN CODE
0712 20 00

DEHYDRATION
Air / spray / freeze-dried

FORMS
Powder • Granules •
Minced • Chopped •
Flakes

GRADE
Food grade

Custom mesh / cut sizes • Moisture ≤ 6% • Private label / bulk

KEY FEATURES

- Milder, clean onion flavour
- Pale colour for light products
- Five cut sizes available
- Uniform, reliable supply

APPLICATIONS

- White sauces and creamy soups
- Dressings and dips
- Seasoning and snack mixes
- Bakery and savoury fillings

Garlic Powder

Allium sativum

Bold Indian garlic in dried, flake and powder forms.

Our garlic is dehydrated to lock in its sharp, savoury punch and then offered as whole dried cloves, flakes or fine powder. It brings instant garlic flavour to any recipe with consistent strength and a clean, white appearance.

HSN CODE
0712 90 04

DEHYDRATION
Air / spray / freeze-dried

FORMS
Powder · Granules ·
Flakes · Minced · Dried

GRADE
Food grade

KEY FEATURES

- Pungent, true garlic flavour
- Dried, flakes and powder forms
- Clean white colour
- Long, stable shelf life

APPLICATIONS

- Seasonings and spice mixes
- Sauces, gravies and marinades
- Snacks and savoury coatings
- Ready meals and instant foods

Ginger Powder

Zingiber officinale

Warm, fiery aroma from Indian ginger.

Indian ginger is known worldwide for its warmth and high pungency. We supply it dried and as a fine powder that carries the root's spicy heat and citrusy aroma into beverages, bakery, spice blends and wellness products.

HSN CODE

- Dried and powder forms
- High volatile-oil content
- Versatile in food and wellness

APPLICATIONS

- Spice blends and curry powders
- Teas, lattes and beverages
- Bakery, biscuits and gingerbread
- Supplements and herbal mixes

Green Chilli Powder

Capsicum annum

Fresh green heat in flakes and fine powder.

Dehydrated green chillies retain their bright, grassy heat and natural green colour. Offered as flakes or fine powder, they bring clean, controllable spice to seasonings, snacks and sauces without the moisture of fresh chillies.

HSN CODE
0904 22 00

DEHYDRATION
Air / spray / freeze-dried

FORMS
Powder · Flakes

GRADE
Food grade

Flakes / 60–80 mesh · Moisture ≤ 8% · Private label / bulk

KEY FEATURES

- Bright green colour, fresh heat
- Flakes and powder forms
- Controllable, consistent pungency
- No fresh-chilli spoilage

APPLICATIONS

- Seasonings and snack coatings
- Sauces, dips and chutneys
- Marinades and rubs
- Instant and ready meals

Fried Onion

Allium cepa

Crispy, golden and intensely savoury — ready to garnish or blend.

Our fried onion is made from select Indian onions, sliced and fried to a deep golden colour for a rich, caramelised flavour with no bitterness. Available as crispy flakes for garnishing or as a fine powder for blending into seasonings, sauces and ready meals — instant depth with no cooking required.

HSN CODE

- Flakes and powder forms
- Ready-to-use, no cooking needed
- Long shelf life

APPLICATIONS

- Garnish for rice, biryani and noodles
- Seasoning and spice blends
- Ready meals and instant soups
- Sauces, gravies and dressings

Lemon Powder

Citrus limon

Zesty citrus brightness, ready to dose.

Lemon powder brings clean, zesty citrus acidity and aroma to dry blends without added liquid. It is perfect for seasonings, beverages and bakery where a precise, consistent lemon note is needed.

APPLICATIONS

- Natural food colouring
- Sports and nutrition blends
- Bakery, pasta and snacks
- Smoothies and lattes

Tomato Powder

Solanum lycopersicum

Concentrated tomato flavour and colour.

Made from ripe red tomatoes, this powder concentrates their savoury-sweet flavour and rich colour into a shelf-stable form. It rehydrates into paste or sauce and is a staple for soups, seasonings and ready meals.

HSN CODE
0712 90 90

- Soups, purées and sauces
- Bakery and snacks
- Natural colouring

Jackfruit Powder

Artocarpus heterophyllus

India's super-fruit — sweet, filling, on-trend.

Jackfruit powder turns one of India's most talked-about fruits into a versatile ingredient. Ripe jackfruit gives a sweet, tropical flavour for beverages and nutrition, while the fruit's fibre and resistant starch make it a popular functional and flour ingredient.

- Gluten-free flour alternative

APPLICATIONS

- Nutrition and meal blends
- Bakery and gluten-free flours
- Smoothies and beverages
- Snacks and cereals

Moringa Powder

Moringa oleifera

The 'miracle tree' leaf, dried to keep it green.

Moringa leaves are among the most nutrient-dense greens on earth. We dry them carefully to protect their vivid colour and nutrition, then mill them into a fine powder used worldwide in supplements, green blends and functional foods.

Guar Gum Powder

Cyamopsis tetragonoloba

India's flagship thickener — from ice cream to oil wells.

Guar gum is a natural galactomannan extracted from the guar bean, and India produces the majority of the world's supply. A highly efficient cold-water thickener and stabiliser, available in food, pharma and industrial grades — including the high-viscosity, derivatised grades used in oil & gas drilling and hydraulic fracturing.

HSN CODE

- Cold-water soluble, natural
- Food, pharma & industrial grades
- Oil-field / fracturing grades available

APPLICATIONS

- Dairy, ice cream, sauces and bakery
- Beverages, dressings and gluten-free
- Oil & gas drilling and fracturing
- Textiles, paper, mining and pet food

Psyllium Husk Powder (Isabgol)

Plantago ovata

The world's go-to soluble-fibre, grown in India.

India grows almost all of the world's psyllium. The husk is an exceptional source of soluble dietary fibre that forms a gel in water, making it a staple in digestive health products, fibre supplements and gluten-free baking.

HSN CODE
