Turmeric Powder

Culinary & Spice Powders · Curcuma longa

HSN 0910 30 30 | Food grade | Origin: India | 60–80 mesh

India grows most of the world's turmeric, and the Nizamabad, Sangli and Erode markets set its grades. The powder is milled to 60–80 mesh and graded by curcumin content (2–5%), giving the deep golden colour and earthy warmth that curry powders, seasonings, natural-colour applications and wellness drinks rely on. Whole fingers are available on request.
